Clerk-Treasurer Millar updated the Council on the status of the state audit, completed in August 2018. Mayor Beck asked if the report had been published on the Department's website, and it had not.

At approximately 7:12 p.m., Mayor Beck opened the public hearing regarding the adoption of the Wyoming Region I Hazard Mitigation Plan. Kim Johnson, with the Wyoming Office of Homeland Security, and Denise Bradshaw, with the Weston County Office of Homeland Security, discussed the mitigation plan and clarified that the map used in the mitigation plan was not a map identifying flood zones, but rather a map that identifies potential flood hazards. The map from 1976 that shows "Flood Zone A", was shown to the Council. Mr. Johnson stated that Weston County and the Town of Upton do not participate in the National Flood Insurance Program, but that the City of Newcastle does currently. He also clarified that adoption of the mitigation plan has absolutely no effect on the Town's participation in the NFIP. Council Member Todd asked about some issues that had been discussed from Campbell County where a home under remodel had a flood plain running through the middle of it and the homeowner had problems obtaining permits to make any changes to the home at all. Mr. Johnson said that Campbell County does participate in the NFIP and has adopted the federal minimum requirements regarding flood zones. It was his opinion that the issues that may have occurred in Unofficial Minutes of the Regular Meeting December 11, 2018

Campbell County would have been due to the guidelines and requirements specifically adopted and codified there.

Mr. Johnson and Ms. Bradshaw had driven through the area in question earlier in the day and had identified some potential mitigation projects that could be considered. He restated that the mitigation plan will not affect any of the properties in the flood zone area identified on the 1976 map.

Residents in the identified area, Bev Vrana, John Henwood, Wade Vrana and Kayla Caylor were in attendance. Mrs. Vrana and Mr. Henwood have lived in the area for over 30 years and have never experienced a property damaging flood event. Mayor Beck clarified that the Town would have to voluntarily participate in the NFIP and designate the area an official flood zone before any properties would be affected. He further clarified that the mitigation plan was completely separate from the NFIP and would enable the Town to have access to grant funding for mitigation projects. Mr. Johnson echoed the clarification and stated that adoption of the mitigation plan allows for all types of hazards to be addressed.

Mrs. Vrana pointed out that Iron Creek heads in the county and that any mitigation would need to start there. Council Member Todd asked Mr. Johnson why the Town of Upton would adopt the mitigation plan. Mr. Johnson explained the grant funds available for pre-mitigation and mitigation were much more stably funded and a larger pot of monies than for post disaster funding. He also stated that sometimes mitigation and capital improvement projects can work well together. Mrs. Vrana asked about the ratio of grant funding to local match. Mr. Johnson explained that the federal funding would be at a 75% federal/25% local ratio for most of the programs.

Council Member Todd asked what project Mr. Johnson would consider pre-mitigation projects for the identified area. Mr. Johnson said the project needs to be cost effective and that more active areas are easier to measure than the area around Iron Creek.

Mrs. Caylor asked if the Town really needs to adopt the plan since there are other grant money options available without the plan. Mayor Beck answered that adopting the plan opened up more options but did not take away from the current funding options. Council Member Watt also interjected that there are a lot of different mitigation areas aside from flood hazards.

Council Member Todd asked if Lusk had a mitigation plan in place before the flood there. Mr. Johnson said that Niobrara County did have a plan in place and explained how the city, county, state and federal government reacted to the disaster.

Mrs. Caylor asked for clarification of who participates in the NFIP and asked if the Town of Upton has any plans of moving forward to participate in the program. Mr. Johnson stated that the City of Newcastle does participate in the NFIP and that Weston County and the Town of Upton do not participate. Mayor Beck stated that the Town of Upton has no current plans to participate in the program.

COUNCIL MEMBER STIRMEL MOVED, COUNCIL MEMBER WATT SECONDED a motion to adjourn the public hearing at 8:06 p.m.

COUNCIL MEMBER WATT MOVED, COUNCIL MEMBER STIRMEL SECONDED a motion to approve the Cash Handling Policy, Service Agreement Policy, Holiday Closure/Paid Leave Policy, and the Collections Policy. All ayes, MOTION CARRIED.

Council Member Todd asked if the Council would be interested in a resolution regarding outside entities using the Town's attorney and reimbursement of incurred fees. He cited expenses related to the rail car facility that did not come to fruition and other expenses incurred during the infrastructure projects at the industrial park in previous years. He had spoken with Attorney Hughes about how much the City of Sundance pays in a retainer fee and noted that there are years that the Town of Upton has spent more in fees than a retainer may cost. He asked that the Council consider the options moving forward.

Chief Bridge gave her report and noted that the first SRO Committee meeting is scheduled for mid-December. Council Member Todd recognized Chief Bridge for the positive changes in the Police Department and thanked her for her work.
