

TOWN OF UPTON
WATER TAP FEES

- #1 **Cost to Customer:**
A) \$1,600.00 ¾" water service
B) \$2,000.00 1" water service
C) This price includes: tap saddle, corporation stop, service line tubing, curb stop, curb box and rod, meter pit and meter. Labor to install said materials.
- #2 **Materials:**
A) The Town will provide and install the service line from the water main to the customer's property line not to exceed 60 feet.
B) If the footage exceeds 60 feet, the customer will pay the cost for any footage beyond 60 feet.
C) The meter pit will be installed at the customer's property line.
D) If a customer requests a larger than standard ¾" or 1" service line, customer will pay the additional costs for the larger size.
E) No matter the size of the service that the customer requests, all materials that the Town is responsible for will be ordered by the Town to ensure that the materials meet with the Town's plumbing standards.
F) The Town will not install any service smaller than ¾".
- #3 **Ditching and Back Filling:**
A) Customer provides both at customer expense.
B) Customer provides the Town with a \$1000.00 bond when ditching is involved.
C) Customer will replace any asphalt, concrete, gravel or other material removed at the customer's expense.
D) Town requires a minimum of 12 inches of approved backfill material be used in all Town streets and rights of way.
E) Upon completion of the project and an inspection has been made by the Town Superintendent and has met with his approval, the bond will be released.
- #4 **Metering:**
A) Meter pits will be used to meter water unless a pit cannot possibly be installed because of location, with the approval of the Town Superintendent, the meter will be allowed to be installed inside the dwelling. A dual check valve will be installed on the customer's side of the meter at the customer's expense. A meter will be installed at an easily accessible location. If a meter is installed inside a dwelling access by the Town must be allowed under reasonable circumstances and notice.
B) If a customer requests a larger than ¾" or 1" meter service, the customer will pay the difference in the cost.
C) There will be only one dwelling or customer allowed on each tap.
- #5 **Responsibilities:**
A) The customer will be responsible for the water service line from the meter pit to the dwelling.
B) The Town will be responsible for the service line from the main line to the meter pit which includes the curb stop.
C) Curb stops and meter pits will be installed in a location so access is available at all times to Town personnel.
D) Contractor's must be able to produce proof of \$2,000,000.00 insurance or bond coverage.
E) Contractor will be responsible for any and all damages sustained to Town utilities.
